EXPERIENCE

April 2022 - Current

SENIOR SOFTWARE DEVELOPER Noumena Global US

This platform is for the entrepreneur to register their business with Noumena and do all sort of activities like events, messages, payments etc. As a user he can create wallet payments and pay by card and many more.

During this time I have taken care of Responsibilities

- Integrated Third party api for the payment solution
- Dwolla integration for Bank and wallet payment solution
- Plaid integration for bank account verification
- Stripe integration for Card payment solution
- Charge bee Integration for subscription.
- Worked closely with other team members to identify and remove software bugs.

April 2020 - April 2022

SOFTWARE DEVELOPER Skuad Lab India Pvt. Ltd | Gurgaon, India

This Platform was developed to design the hiring process for both Skuad and the companies that are looking for resources for their project. It maintains all the candidate's records including their resume details and the interview track. Further more we have included contracts and payment between vendors and clients.

During this time I have taken care of Responsibilities:

- Enabled cookie based authentication
- Build an identity service for user to login and authenticate any service
- Also worked upon Google Analytics for tracking of User activities
- Created Contract with panda doc.

January 2019 - April 2020

SOFTWARE DEVELOPER Appstreet Software Pvt. Ltd | Gurgaon, India

Over here I have worked with client Cardekho. For them we have designed the system(Linux) for them to give loan to customer through credit line. Repayment of loan. We also make the system(connex) to resell the car through auctions.

During this time I have taken care of Responsibilities:

- Managed transaction for the system and maintaining ledger items
- Defined and developed core logic before starting any module
- Google based authentication
- Responsible for managing backend schema for different entity used
- Responsible for business understanding and then implementing accordingly.

July 2016 - December 2018

ASSOCIATE IT Daffodil Software Pvt. Ltd | Hisar, India

I have worked upon the core Product of Daffodil. I worked with the Applane for Education Product team that manages all the activities for the student like attendance, results, PTM, Timetables etc

During this time I have taken care of Responsibilities:

- Responsible for managing backend Schema for different entities used
- Responsible for managing report cards and attendance of the students
- Defined and developed core logic before starting any module
- Google app engine for application monitoring
